The Radnor Township Historical Architectural Review Board at their regularly scheduled meeting on October 5, 2016 recommended denial of HARB #2016-16 in a vote of **4-0**. Their concerns were based on the following:

The Historic and Architectural Review Board suggested making the addition smaller and detaching the garage, therefore, a motion was made to deny the issuance of the Certificate of Appropriateness.

In accordance with Chapter 178-8.G, the Board of Commissioners shall either:

1. Approve or deny the certificate of appropriateness consistent with action taken by the HARB in connection with building and/or demolition.
2. Approve the application and authorize a certificate of appropriateness with modifications to the HARB recommendation.
3. Reverse the recommendation of the HARB.
