QUICKBALL SPRING 2023

Quickball is a dynamic curriculum-based baseball/softball developmental tool using a patented ball and weight-balanced bat. It is fast-paced, fun, engaging, and highly instructional for players from 3 to MLB! Fast-paced and addictively fun, it hooks kids and their families and keeps them engaged, focusing as much on why you play as on how you play.

This entry-level Quickball program is designed for those first being introduced to the games of baseball and softball. With more activity and less standing around, Quickball will help young players and their families fall in love with the greatest game ever created! Learn more about Quickball at www.el1quickball.com.
