Again today JJD had a two (2) man crew working onsite to excavate for the proposed Pike Field Garage. This included them hauling dirt offsite with multiple triaxle trucks.</p> <p>2.) The construction entrance was maintained and it appears that all dirt and/or mud was kept in the site as designed.</p> <p>3.) Due to the roads getting some mud and dirt on them towards the end of the working day I was notified that the roads were getting dirty so I was back onsite to observe the contractor taking all precautions to help with the mud and dirt. The intersection was swept up by hand and was cleaned of all dirt and debris by the end of the day.</p> <p>4.) JJD was informed that a sweeper truck would be needed onsite to avoid any further issues. The sweeper truck will be onsite tomorrow.</p>
