I walked the entire site to check on all installed E&S controls which all appear functional at this time. 2.) Cook Drilling continues with drilling and installation for the proposed caisson installation. 3.) JJD installed two more loads of #4 Ballast to the Construction Entrance off of Ithan Avenue near the SEPTA overpass. These two (2) loads were added to extend the road so that it gives the trucks more time to clean off the tires and keep the mud inside the jobsite.
